

# The ABSOLVE Family of Materials

## ***PE-ABSOLVE, PP-ABSOLVE and PS-ABSOLVE***

1. Modified polyethylene, polypropylene and polystyrene that looks, feels and processes like their counterparts.
2. Product that incorporates state of the art polymer technology to facilitate degradation in litter form, commercial or personal compost, as well as in landfill disposal. (Claim based on certification provided by suppliers.)
3. Product engineered by Primex Plastics Corporation. Available in sheet or roll for printing, forming, or any application where polyethylene, polypropylene and polystyrene are currently used.
4. Additional product information, pricing and delivery available by calling 800.524.6777.
