Lacquered-Acryl-Glass  
Glass effect surfaces  
for the sanitary industry

## **senosan®** *Gloss news* *for bath design*

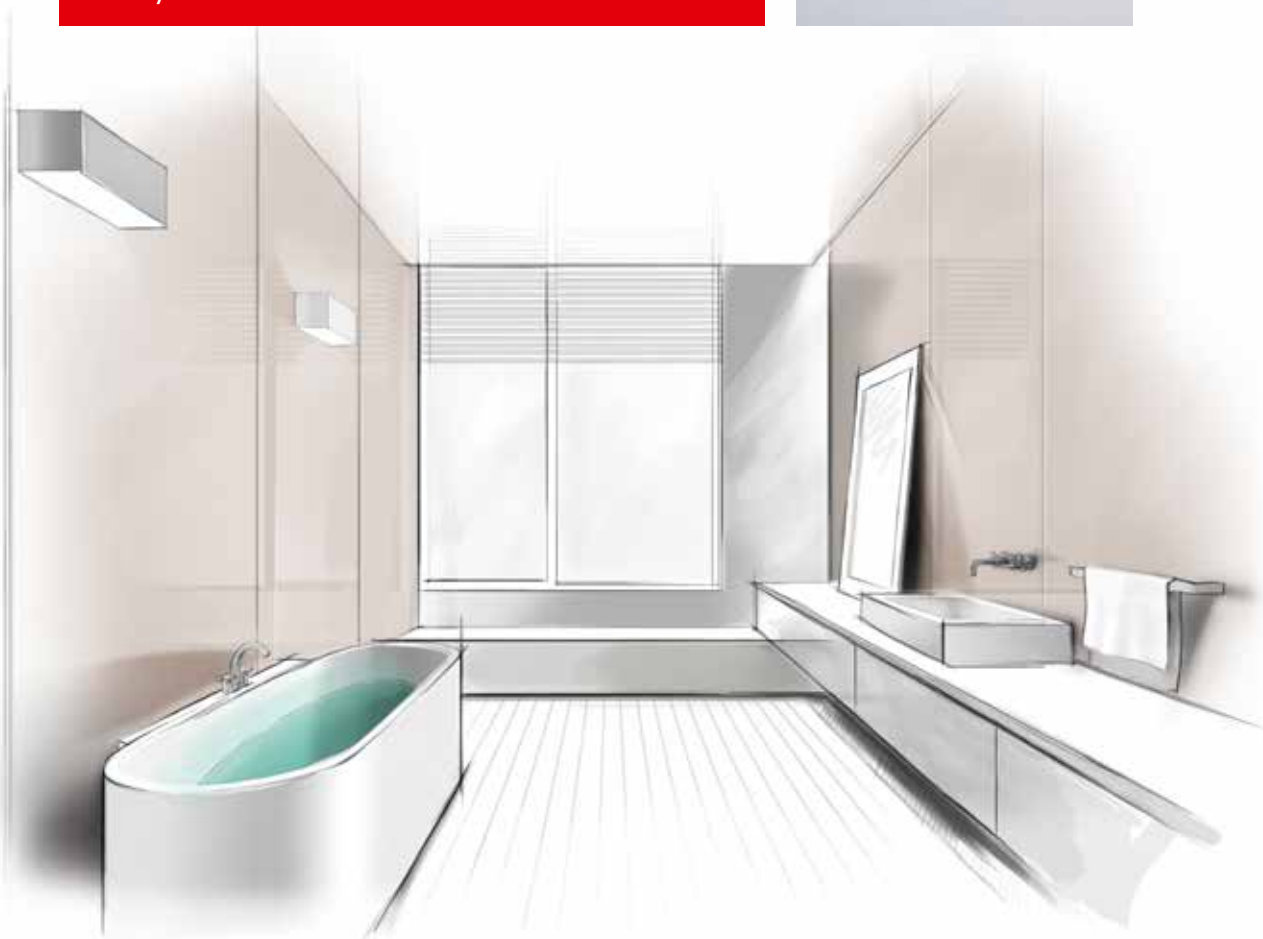

Glass fronts create an elegant appearance in bathrooms. Real glass however is a very demanding and sensitive material with regard to impact and cleaning properties.

The solution is: senosan® Lacquered-Acryl-Glass – high quality surfaces with glass effect, giving the appearance of depth with it's high gloss level. This coextruded material combines the aesthetic advantages of real glass fronts with the processing and practical advantages of senosan® sheets.

All in all: superb design, superb handling.

### Advantages:

- Claim free processing
- Ability to be drilled
- Low in weight – flexible fitting on site
- Excellent impact strength and scratch resistance
- Easy to clean and maintain

## Trend colors

For all senosan® products, before ordering please definitely ask us for an original color sample! All the colors in this brochure are given for orientation only. In no way can they be seen as legally binding! Product and color changes, all rights reserved.
